

Claims

1. A crotch-possessing corrective garment, comprising:

a tightening portion in an area which fits over a wearer's body, the tightening portion extending, when the garment is being worn, from the vicinity of an upper part of the buttocks cleft, passing the vicinities of upper parts of the right and left buttocks, to the vicinities of the right and left greater trochanters; and

a body front tightening portion made of material having a tightening force and extending, when the garment is being worn, from above the crotch at the front center toward above the right and left of the crotch.

2. A crotch-possessing corrective garment, comprising:

in an area fitting over a wearer's body, a tightening portion for which the magnitude of a tightening force varies with areas, the tightening portion extending, when the garment is being worn, from the vicinity of an upper part of the buttocks cleft, passing the vicinities of upper parts of the right and left buttocks, to the vicinities of the right and left greater trochanters; and

a body front tightening portion made of material having a tightening force and extending, when the garment is being worn, from above the crotch at the front center toward above the right and left of the crotch.

3. A crotch-possessing corrective garment, comprising:

in areas fitting over a wearer's body, a pair of right and left tightening portions for which the magnitude of a tightening force varies with areas, each of the tightening portions extending, when the garment

is being worn, from the vicinity of the right or left greater trochanter to the vicinity of an upper part of the right or left buttocks such as to extend toward the vicinity of an upper part of the buttocks cleft; and

a body front tightening portion made of material having a
5 tightening force and extending, when the garment is being worn, from above the crotch at the front center toward above the right and left of the crotch.

4. The crotch-possessing corrective garment according to any of claims 1 through 3, wherein the tightening portion, which extends, when
10 the garment is being worn, from the vicinity of the upper part of the buttocks cleft, passing the vicinities of the upper parts of the right and left buttocks, to the vicinities of the right and left greater trochanters, is configured such that the tightening force is strongest in the vicinity of the upper part of the buttocks cleft.

5. The crotch-possessing corrective garment according to any of claims 1 through 4, wherein the tightening portion, which extends, when
15 the garment is being worn, from the vicinity of the upper part of the buttocks cleft, passing the vicinities of the upper parts of the right and left buttocks, to the vicinities of the right and left greater trochanters, is configured such that the tightening force is strongest in the vicinity of
20 the upper part of the buttocks cleft and gradually weakens in a direction passing the vicinities of the upper parts of the right and left buttocks and extending toward the vicinities of the right and left greater trochanters.

6. The crotch-possessing corrective garment according to any of
25 claims 1 through 5, further comprising thigh portions which fit over the wearer's thighs, wherein the tightening portion further extends from the

vicinities of the greater trochanters along the outer borders of the thigh portions.

7. The crotch-possessing corrective garment according to claim 6, wherein the tightening portion further reaches ankles.

5 8. The crotch-possessing corrective garment according to any of claims 1 through 7, wherein the tightening portion has a shape which is curved upward in the vicinity of the upper parts of the buttocks when the garment is being worn.

10 9. The crotch-possessing corrective garment according to any of claims 1 through 8, wherein, when the garment is being worn, the tightening portion comprises an upper side tightening portion positioned on an upper side, and a lower side tightening portion which is positioned on a lower side and has a strong tightening force.

15 10. The crotch-possessing corrective garment according to any of claims 1 through 9, wherein the tightening portion forms a belt shape.

11. The crotch-possessing corrective garment according to any of claims 1 through 10, wherein the tightening portion is formed through power change in a single piece of knitted fabric.

20 12. The crotch-possessing corrective garment according to any of claims 1 through 11, wherein the crotch-possessing corrective garment is any of a girdle, spats, a bathing suit, tights, a pantyhose, sports tights, a leotard, a body suit, and men's pants.
